

Putting the Framework for the Development of Environment Statistics (FDES) to Work - A Blueprint for Action

The objective of the Blueprint is to document a way forward for making the Framework for the Development of Environment Statistics (FDES) and the Core Set of Environment Statistics operational in countries that need guidance in starting or further developing their environment statistics programmes. It focuses on assisting countries in the establishment and development of their environment statistics programmes in an incremental manner to produce a comprehensive set of statistics that can be useful and responsive to the demands of a wide array of users.
