PRASC: Roadmap to Improve the Use of Administrative Data 2016

The steps outlined in this document are provided as a guideline for NSOs who want to enhance the access, use and management of administrative data in their statistical programs. For each step, a series of tasks is provided for consideration by the NSO and the benefits to the statistical program are listed. For some steps, tools and templates are included. The order of the different steps presented is provided as a general guideline – some tasks can be conducted in parallel.

This document was prepared as part of the regional seminar on Administrative Data held in Trinidad, January 25-28, 2016, as part of the Project for the Regional Advancement of Statistics in the Caribbean (PRASC).
