

Calculation of FISIM

PowerPoint presentation on the methods and approaches used to calculate FISIM in the member countries of the Eastern Caribbean Currency Union (ECCU), based on the System of National Accounts (SNA) 2008, Topics covered include the key changes associated with measuring FISIM, data sources, the impact of FISIM allocation, issues in the calculation and areas for improvement. The presentation was delivered by a representative from the Eastern Caribbean Central Bank at a Regional Workshop on National Accounts convened by the Caribbean Community (CARICOM) Secretariat in June 2016.
